

L, LS and S/LS Utility Clips and Skewable Angles

L, LS and S/LS angles are load rated and provide the correct thickness and number of fasteners the specifier is looking for compared with field-fabricated clip angles. These angles also have well-defined fastener locations, and testing ensures that the tabulated load values account for connection eccentricities. The connectors are general utility reinforcing angles with multiple uses. LS and S/LS connectors are skewable and can be used to attach members intersecting at angles.

Material: L – 54 mil (16 ga.); LS – 43 mil (18 ga.); S/LS – 43 mil (18 ga.)

Finish: Galvanized (G90)

Codes: Call Simpson Strong-Tie for status and test data
